

City of Mounds View – Organized Waste Survey

The City of Mounds View is soliciting opinions from its residents regarding the issue of organized collection, whereby the City would directly negotiate with a consortium of haulers, or a single hauler, to provide garbage service to single family residential properties, including twin homes, duplexes and tri-plexes. The objectives of an organized system would be to extend the life of the City streets, reduce hauling cost to residents, improve safety, and reduce emissions and fuel consumption, along with other possible objectives. Before taking that step, the City Council would like to know what you think about such a system, and has created this advisory survey form to solicit your feedback.

Please return the completed survey to City Hall in person, by US Mail or email to solidwaste@ci.mounds-view.mn.us.

1. Which hauler do you presently use for garbage service?
(Circle one)

(Ace) (Republic) (Walters) (Waste Mgmt)

2. Have you experienced any problems related to garbage hauling services which regularly occur in your neighborhood? If so, what are they?

3. How would you rate the service provided by your garbage hauling company? (Circle one)

(Poor) (OK) (Good) (Excellent)

4. What do you like most about the service provided by your garbage hauling company?

5. Are there any changes or improvements you would like to see your garbage hauling company make? If so, what would that be?

6. How important is it to you to be able to choose your garbage hauling company? (Circle one)

(Not Important) (Somewhat Important) (Very Important)

7. Would you favor or oppose changing from the current system in which residents may choose from several different haulers to a system where the City, after thorough negotiations, chooses the hauler for your area? (Circle one)

(Favor) (Oppose)

8. Could you tell us one or two reasons for your answer above? (Feel free to attach an additional page or pages if necessary!)

9. Please provide your contact information below. This is needed to help ensure the validity of the survey responses.
